

Venkatajalapathy P

Web Development | MERN

CAREER OBJECTIVE

To seek an opportunity that allows me to showcase my skills and contribute to the company's growth and help me to build a stronger skill set.

WEB DEVELOPMENT

- Web development process includes that are good to take to build an attractive, effective and responsive website.
- Responsive web design (RWD) is a web development approach that creates **dynamic changes** to the appearance of a website, **depending on the screen size and orientation** of the device being used to view it.
- In website, user-friendly is about making it easy for visitors to find the information they need quickly and easily on any device. There are many ways to improve the usability.
- **Responsive site** - we need to build the websites we create in such a way that they automatically adopt to the size of the screen we're looking at.
- I'm qualified to create such kind of websites and I have also created some responsive web pages like this.

PROFESSIONAL EXPERIENCE

EMS - Quality Inspector | Syrma Technologies - Chennai

Oct 2020 to Feb 2022

Made quality decisions (accept or reject) based on provided requirements. Monitors the quality level of products from all suppliers, and informs supervisor if any defects found there and visit. Documented for all rejected products based on organization policies and move it scrap yard or return to supplier and get 8D (8 Disciplines).
